- Metallic line colours available are silver anodised, black, anthracite, gunmetal, brushed aluminium and chrome effect.
- Standard length of the profiles is 6m, with the exception of chrome, anthracite and brushed aluminium which are available in 4m lengths.
- Can be bent.

1200

Profile, Bending and Specification Information

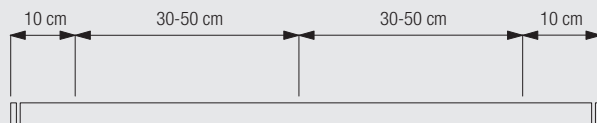

The standard radius is recommended for optimal operation.

Specification Guide - download from the Silent Gliss Extranet

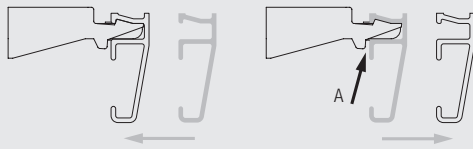

Silent Gliss 1200 hand drawn curtain track in white powder-coated aluminium. Fix to wall with brackets 3175/ceiling with brackets 3176 every 60cm. Special gliders should be fitted at 10/m to run on back rims of channel so as to keep curtain heading upright. Fit with end covers 3986 at either end.

Fitting Information

Bracket positioning and fixing with 3175 and 3176

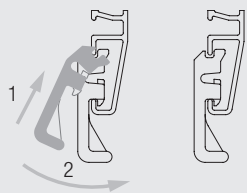

The fixing distances are meant as guide only: they may vary in practice depending on surface or curtain weight.

Installation: push track on bracket in direction indicated
Removal: place screwdriver where indicated (A) and twist. Pull track away from bracket
